

The 3 Biggest VFR & IFR Radio Mistakes, (or how NOT to make them!)

Radio communication, especially in the busy LA basin, can be confusing and hectic. There are 3 common mistakes that VFR and IFR pilots make that can cause confusion, delays, or even dangerous situations. PLUS the one radio communication you are required to do that, ALMOST NO ONE DOES, and why this mistake can actually cost lives.....There is a modest fee for this event to support SoCal PA, please refer to: <http://www.socalpilots.orgfor details>.

Directions: Airport Commission Room (from Back Entrance)<https://www.socalpilots.org/MbrPgm/Member/Contacts.asp>

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
